The British Admiral reports the Spanish loss 350 killed and 900 wounded.

Malate is half way between Cavite and Manila.

Gen. Green's force numbers 4,000 and his trenches extend from the beach, 300 yards to the left flank of the insurgents.

Sunday was the insurgent feast day, and their left flank withdrew, leaving the American right exposed.

Companies A. and E. of the 10th Pennsylvania and a battery were ordered to reinforce the right flank in a raging typhoon.

The enemy's strength was estimated at 3,000 men.

HOW IT WAS DONE.

They attempted to surprise the camp. The pickets were driven in and the trenches assaulted.

The Pennsylvanians stood their ground and the 1st California with two companies of the 3rd Artillery with rifles reinforced them, and never was the discipline of the regulars better demonstrated than by the work of the 3rd Artillery, under Capt. O'Hara. Nothing could be seen but the flashes of Mauser rifles.

The Spaniards were put to flight and driven back to the city. The American dead were buried in the convent at Maracaban.

On the night of August 1st the fighting was renewed, the enemy attacking with long range heavy artillery.

The Utah battery replied and the artillery duel lasted an

hour. One man was killed--Fred Springster, 1st Cavalry. Two were wounded.

On August 2 the artillery duel was renewed and two men badly wounded and two are reported dead.

The total dead is 13 and 10 are in the hospital mortally hurt.

WHEAT NOT ALL THRESHED.

About Ten Per Cent. Still Remains in the Shocks.

The rainy spell this week finds about ten per cent. of the wheat crop still unthreshed. A few of the largest growers have out a part of their crops, preferring to wait after the rain ceased until the grain was thoroughly dry and the weather again became unfavorable before they could finish. The damage so far has proven to be small and careful attention to the crop in the field will prevent any serious loss, even with another prolonged rainy spell.

DIDN'T WAIT LONG

For a Chance to go to the Front.

Letters received here from some of the colored recruits who were sent to Ft. McPherson last week say they were put through another examination and all of the best men physically were at once started to New York. They did not know the object of this, but the 8th Illinois Colored Regiment was due to leave New York for Santiago yesterday and it may have been the intention of the government to send these recruits for the 10th cavalry on the same ship to Santiago.

PROCLAMATION.

Blanco is Preparing to Descend From His Lofty Elevation.

Becoming Fleck as Moses and Is Surprising the Cubans With Kind Treatment.

New York, Aug. 9.---(Special.)---According to advices received from Havana by the Cuban Junta, Capt. Gen. Blanco appreciates the fact that he must soon withdraw himself and his forces from the Island of Cuba. He assumed a mildness of demeanor which compares strangely with his previous bombastic attitude and frequently expressed determination to hold out in Havana to the death, and he is treating the insurgents with great consideration. In a recent procla-

mation he made known to the Spanish people of Cuba that Spain, through the intervention of foreign powers, had been forced to the disgraceful issue of suing for peace, and that there would be no more war and no further use for soldiers. He offered a pardon to all Cuban political prisoners, and more than 150 were released in Havana.

Capt. Gen. Blanco assures the soldiers and all Spanish residents who wish to return to Spain or go to other Spanish possessions that they will get free transportation, given by their mother country, to their destination, and will be protected from interference on the part of either the Cubans or Americans. He suggests that the Cubans be forgiven and no longer regarded as enemies, and that no unkind feelings be cherished.
